## GLEANNINGS

From the News of the World.

Two more cases of small-pox are reported at Middleborough.

Senator Brewster denies that he has any idea of becoming a candidate for Governor.

A squadron of torpedo boats and torpedo-boat destroyers is about to start from Spain to Cuba.

Senator Barnard, the new Spanish Minister to the United States, sailed from Gibraltar Tuesday.

United States Navy officers report a frightfully heavy death rate in Santiago de Cuba province.

The British flag is said to have been planted on supposed American soil 13 miles from Skaguay.

The monthly Treasury statement February will show a small surplus and an increase of \$2,500,000 over last year.

A regiment of cowboys and frontiersmen is being organized in Arizona for service in the event of war with Spain.

Gov. S. B. Felt, of California, will be a candidate for the United States Senate if the next Legislature of that State is Democratic.

John Newman, of Still County, claims to have made a big silver strike on his farm and is making preparations to work the mine.

General Gibbons delivered a patriotic address at Baltimore praising the Malak victims and praising the President, his Cabinet and Congress.

A retired naval officer of high rank is writing to a friend at Louisville that he cannot see how war with Spain could be avoided, in the face of the facts in the possession of this Government.

The remains of Geo. W. Ferris, inventor of the great wheel at the World's Fair, are held at a crematory in Pittsburgh for unpaid funeral expenses.

Inventor Holland, probably in anticipation of war, is completing the machinery of his submarine tank, which, it is proved successful, will sell to the United States Government.

M. Hingerty, publisher of Philadelphia Record, died Sunday while sitting in his home smoking a cigar. He was in good health except cold.

Mill strikers of New Jersey issued an appeal stating that about 400 families, comprising 2,000 souls, are slowly starving to death.

Though overtures have been made by the Populists looking toward fusion, the Republicans of Alabama will most probably nominate a full ticket from Governor down.

Col. Ben Harrison, the veteran Kentucky newspaper man, formerly of Henderson, died Tuesday at Philadelphia, where he had been residing since October.

Practically nothing has been accomplished in the way of removing the guns and deck debris from the Maine and the hull is steadily sinking in the mud of the harbor.

A resolution was introduced in the House at Washington giving authority of the Treasury to secure options on war-making an appropriation available immediately.

Nine shots were fired at King George of Greece Sunday as he was riding in his carriage at Athens with the Princess Maria. One of the footmen was wounded. The shots were fired by two men, who have not been captured.

I desire to attest to the merits of Chamberlain's Cough Remedy as one of the most valuable and efficient preparations on the market.

It broke an exceedingly dangerous cough for me in 24 hours, and in gratitude therefor, I desire to inform you that I will never be without it, and you should feel proud of the high esteem in which your remedies are held by people in general.

It is the one remedy among ten thousand. Success to it. O. H. Downey, Editor Democrat, Albion, Ind. For sale by A. M. Hughes, Louisa, Ky.

Every ship brings news of people who have lost their lives in trying to reach the frozen Klondike.

A party of 27 perished just before the last report was sent. But still the rush will go on. More money has gone into the Klondike already than has come out of it.

People have spent more to get there than they have brought back. When a man finds a nugget or strikes gravel that pays \$2 to the pan you always hear of it, but you never hear of those who don't.

Ninety per cent. of the people who go there will not pay their expenses. That is the record of every mining craze that has ever struck this or any other country.

It is the doom of the majority to get it. For every man who has got rich prospecting for gold or silver, ninety-nine have forfeited their time and investment.

Just about as many people make fortunes in mining as draw prizes in lotteries, and the chances of getting rich are about even between the two methods.

IN MEMORIAM.

"In the midst of life there is death." Little do we realize the truth in these few words until death comes in our midst and takes away one of our loved ones.

One by one they are taken from us. This time it was Alice Salter's time to respond to that final call, and in giving her up, Blaine has a loss which seldom occurs, for there seemed so much that Alice could and would do.

She was the first to volunteer into any family where death, sickness or any trouble was, especially in families where she knew help was needed and would be gladly accepted.

Always ready and willing to answer such calls when sent for with the same free loving spirit. Always a kind word or deed for everybody, willing to deny herself of anything for the pleasure of even a stranger.

So will it be any wonder that Blaine will miss her? Yes, missed in such a way that no one can take her place. Girls, we all know she was a good Christian girl, but now that she is gone from us, such a fact has no doubt reflected in the last few days to reflect back on her ways and deeds, and impresses upon us that if we tried we could be more like her.

So let us be faithful (as she requested) so we will be ready to meet her in Heaven where we are called. It seemed sad to give her up with such a short notice, but, as usual, Alice was ready and willing to go. As she had friends by the score we each know the value of our loss and can sympathize with each other in our sorrow.

And our sympathy not only goes with her father, brothers and sisters, but especially deep sympathy is contributed to Mr. and Mrs. Harry Campbell, who Alice had been more than a sister to in every respect for years.

It is a loss to us as a true friend, but the loss is far more to them who need her more than we do.

## WAR TALK

As the Result of the Maine Disaster.

Lieutenant General Wade Hampton, of the Confederate Army, advises Southerners to keep out of the proposed war with Spain. He says they cannot stand the losses of another war. He will not offer his services to the Government.

San Francisco, Feb. 28.—The army leaders here no longer try to withhold the information that war preparations are progressing. Activity is the rule at the military posts.

Congressman Bromwell, of Cincinnati, will offer an amendment to the naval appropriation bill when it shall be called up, providing for an appropriation of \$10,000,000 to \$15,000,000 for new ships for our navy.

General Lee has been assigned a body guard of three soldiers at Havana, in view of the hostile attitude of the populace towards the Consul General.

The Cardinal Archbishop of Valladolid, Spain, has published a pastoral letter blaming Americans for the prolongation of the Cuban war and saying "he expects all Spaniards to unite in defending the rights and honor of the Nation."

The prevailing impression among Spanish editors is that the war will break out about April 1.

Dr. Johnson, the President's minister, yesterday preached for "Peace at Any Price." McKinley was praised. The President listened attentively.

New York, Feb. 28.—Rev. Thos. H. Derrick, a Universalist minister who has filled a pulpit in Rochester, has enlisted as a private in the U. S. Army. He has always had a taste for military life, and when the news of the Maine disaster came he saw there was a chance for active service. He begins duty today on David's Island.

London papers are denouncing the Maine explosion as an act of "blackest treachery."

Spanish papers want the Madrid Government to "disturb President McKinley's pacific intentions" and prepare for war, as America is doing.

The assembling of the new Cortes will probably be on April 1. Wm. A. Eddy, of New York, has offered to furnish a new kite he has invented, by which photographs of vessels at sea can be taken at a distance, and before they can be seen from a ship. Pictures of fortifications can also be taken at a safe distance.

The Government has signed contracts with three or four of the large Eastern and Southern Railroads for the transportation of troops in event of war.

New York, Feb. 28.—The Journal today asserts that plates are being prepared in Washington for a \$250,000,000 special bond issue in event of a war.

Dr. Gitting, inventor of the gun by that name, says:

"If the Spaniards did it, let us make a heavy indemnity; and if they do not respond, there can be no honorable course but war."

The surviving divisions of the Navy Department are working day and night, platting every important harbor in the United States and the Government contractors are just busy preparing explosives for the torpedoes and fortification guns.

The Dupont Powder Company has contracts ahead to furnish enough material for this purpose. The preparations now making are purely naval, as the possible war is not regarded as a menace to anything but the sea coasts.

The operations now in progress are the platting of all harbors for 12 miles out to sea. These are to be laid off in blocks of 100 feet each, each of which is to be connected with the signal station by two wires attached to the mines.

Each mine roughly put, consists of a torpedo and its anchor. The average gas carried by men-of-war and projectiles about 12 miles. From the high signal stations the position of the vessel will be determined, and by one wire the torpedo may be loosened from its anchor.

It will rise directly under the ship, then a second wire is to be used to explode the cap of fulminate of mercury which sets off the gas cotton. The ammunition now being made is composed mainly of high explosives which, with smokeless powder, are the only powders used by the department.

The smokeless powder is used for the army and the others for naval operations.

Few persons would recognize these powders if they should find them. Gun cotton, the most powerful of all, is used for torpedoes and in appearance each cake is a white block, very much resembling a toilet soap.

It will melt at six ounces and four hundred degrees and is used in a

Chicago Inter Ocean.—  
If Uncle Sam should get into a war it would save the rest of the toll-gates in Kentucky. Kentucky has naturally have to fight something, and only tackle toll-gates when anything better offers. They have been that way ever since the days when Daniel Boone started the stock.

Bladder Troubles.

The bladder was created for one purpose, namely a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second is from careless local treatment of other diseases.

SAMPLE SENT FREE.

Unwholesome urine from unhealthy kidneys is the chief cause of bladder troubles. It is comforting to know that Dr. Kilmer's Swamp Root fulfills every wish in quickly curing bladder and urinary troubles. It corrects frequent calls, inability to hold urine and stinging or stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes the unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Dr. Kilmer's Swamp Root is soon realized. It stands the highest for its most wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents and one dollar.

You may have a sample bottle and pamphlet sent free by mail upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention BIG SANDY NEWS and send your address to Dr. Kilmer & Co., Binghamton, N. Y.

## Severe Suffering

Serious Case of Internal Ulcerated Piles Cured by Hood's Sarsaparilla—Able to Work for the First Time in Four Years.

"My husband was taken with severe internal ulcerated piles. He was once apparently cured but the old trouble came back as bad as ever. He became very weak. After a while he gave up all other medicines and began taking Hood's Sarsaparilla. This medicine did him wonderful good. In about two months he was able to walk out in the yard. When he had taken seven bottles he was able to ride out every day and work a little and he had gained 40 pounds in weight. He is now about as well as he ever was and has been at work on his farm. Last fall he sowed his own wheat, this being the first wheat he had done for ten years. I think Hood's Sarsaparilla the most wonderful medicine in the world."

Congressman Fitzpatrick said that he thought the Maine was blown up by Spanish treachery. "The probable outcome will be that we will apologize for sending the vessel down there."—Courier-Journal.

Secretary of War Long says, "any official responsibility by the Spanish Government in the blowing up of the Maine is now practically eliminated." This is the most important development during the past week, as it shows the feeling of the administration. The board of inquiry is still at work and may not report for some weeks.

Marine Your Bowels With Cascarets. Cascarets, pure, gentle, reliable. No. 10. H. C. C. Co., Baltimore, Md.

## The Maine Investigation.

The latest report says the court of inquiry is thought to have decided that the Maine was blown up by a floating submarine mine under the port side of the ship, fired from an electric battery on shore.

Assistant Secretary of the Navy Roosevelt made an official statement to the effect that the administration does not believe there will be war, and it is only making preparations against a possible contingency.

Fitzhugh Lee, Jr., son of the Consul General, has gone to Havana to join his father. He goes at the instance of his mother, who is greatly alarmed over the safety of her husband.

Every thing unofficial from Havana indicates that the Maine was destroyed by Spanish treachery. Court of inquiry is at Key West. Food is extremely scarce in Spain. New York Sun says Republicans will not dare adjourn Congress without having the Cuba. President believed to have undoubted evidence of a mine, but has instructed deliberation by Court of inquiry to gain time. April 1 is set as time for war with United States in Spain. Official report of the board is predicted to be "Explosion by unknown external cause." War preparations are not only being pushed here but in Spain. France predicts war between the United States and Spain. The North Atlantic Squadron at Key West keeps up steam.

## BAD DAM NEWS.

No River and Harbor Bill Likely to be Passed

Washington, Feb. 25.—A long and somewhat exciting debate over the question of river and harbor appropriations was protracted in the House today during the consideration of the Sundry Civil Appropriation Bill. It was practically agreed by all those who participated that there would be no river and harbor bill at this session of Congress, and this led Mr. Moody to attack the contract for the construction of the Sundry Civil Appropriation Bill, which is in Mr. Dingley's district, and his remarks in denunciation of what he termed favoritism approached the sensational. Mr. Dingley denied that he had ever suggested the appropriation to the Committee on Appropriations or to any individual member of the committee. It was intimated there was a plan to defeat all the items in the bill so as to force consideration of a general river and harbor bill, but this intimation was not borne out by the vote upon the amendment, upon which the debate rested.

Washington, Feb. 28.—It can be stated positively that no River and Harbor Bill will be reported at this session of Congress. The House leaders are opposed to a River and Harbor Bill, and the friends of the bill on the committee believe it would be better to wait until the short session, after the congressional elections next fall, when a complete and comprehensive bill can be reported, rather than attempt to pass an inadequate bill at this session.

In a debate in Congress over the question of river appropriations last week Congressman Berry knocked out Dingley and Reed by showing that Kentucky pays more revenue to the government than all the New England States combined.

The war movement and the failure of the Dingley tariff law as a revenue producer are two strong factors operating against the passage of a River and Harbor Bill at the present session of Congress. Rivers already under the contract system, however, will get money through the Sundry Civil Bill. But Big Sandy is not there.

Washington, D.C., Feb. 25, 1898.  
Mr. J. B. Johnson,  
Lexington, Ky.,

Dear Sir:—Yours of 20th inst. received. I shall very gladly do all I can to further the improvement of the Big Sandy. It is very doubtful, however, if the present Congress is permitted to do anything in this line as the Republicans are very much afraid of a deficit under the Dingley Bill.

Born to the wife of Henderson Wells, a boy; also to the wife of I. Cochran, a boy.

Wm. Cartmell has moved from Jay H. Northrup's farm on 3-mile to Peck Branch.

William Vanhose moved from Torchlight to Thomas Thompson's farm on Smith.

Roe Deane has moved into Mrs. Peggy Harrell's property.

Miss Mary E. See, who has been visiting friends at Williamson for the last two months, has returned home.

A series of meetings has just closed here with one conversion. Bro. Miller and others conducted the meeting.

Frank Maynard, of Big Blaine, has purchased a farm of Crit See, and we understand will move into our community soon. We are rejoiced to welcome him to our neighborhood.

John Ratliff has been suffering for some time with something like a rising in his head.

Married last week, near here, Liss Webb and Miss Lucy Gannell. We wish them a happy life.

A row occurred at church the other night in which knives were drawn but luckily no harm done. We think that church ought to be the last place to come to raise disturbances.

M. B. See was in our midst last week buying cows.

Porter Hensley, who has been prospecting some for Jay Northrup, says he has surely found gold, and true enough he has found something resembling gold. The stone is of a greyish color and exceedingly hard.

We are sorry to state that Bob Layne, better known as Hob Thompson, is very low and his recovery is doubtful.

A number of our citizens attended County Court last Monday and had the pleasure of hearing the Judge discuss a piece of road as much needed as any road in the county.

KE'S SON.

THE SURPRISE OF ALL

Mr. James Jones of the drug firm of Jones & Son, Camden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was taken with La Grippe, and her case grew so serious that physicians at Camden and Paducah consulting together, it seemed to develop into a very dangerous condition. Having Dr. King's New Discovery in store, and seeing how it helped a little home, and to the surprise of all, she began to get better from the first dose, and had a dozen other ladies cured her same manner. Dr. King's New Discovery is a very reliable remedy, and all is guaranteed to do this work. Try it. Free trial bottles at A. M. Hughes drug store.

HUCHANAN.

The entertainment given on the 22nd of Feb., was a decided success in point of amusement as well as games. The plays were all well rendered and enjoyed by the many who attended.

The following were the plays and cast of characters:

L. L. Smith, J. D. Turman, Royal Meadows, J. E. Rely, Arthur Floyd, Steve Thompson, Geo. Pifford, Linda Filzall, Hecaster, Jas. Turman, Pason Smith, Joe Martin, Bob Terry, C. P. Frazell, Phony, Tom Davis, Mrs. Jones, Mrs. John Davidson.

## WEBBVILLE.

Charles Berry has returned from Carter City. Judge Woods has been sick for a few days.

Dr. Watson visited home folks this week. A bat fight between Jas. Berry and Flen Fannin Saturday gave the boys some sport.

H. News of Blaine is visiting here. Frank Yates was here this week writing life insurance.

Albert Harmon, of Cat, was here Wednesday. K. Holbrook and Curtis Thompson went Sunday at home.

Sos's N. D.

HUMILARDSTOWN.

Jay O'Daniel of Horsford, remained over night at this place last week, on his return from the entertainment at Round Bottom and reports it a grand affair.

John Snow, our veterinary surgeon, has been meeting with great success in his profession the past week.

J. J. Thompson and son, Oscar, was in Louisa last week.

Norman Massey, who was shot by John Johns several days ago, is slowly recovering.

W. N. Davis was in Catlettsburg last week on business.

The protracted meeting which has been carried on for some time at Cummins' chapel, closed with decided success recently.

James Johns, of your place, was here last week and from what some of the fair sex say he is liable to be seen on our streets again.

J. C. Strother is the champion duck killer in these parts, having killed 13 wild ducks and wounding several others at one shot.

Dock Stewart, of Zella, was here Sunday, calling on some of the fair sex of the town.

Mrs. J. E. Meredith, who has been very low with dropsy, is getting better.

Morris Springfield has moved into the house formerly occupied by uncle Andy York.

James Pritchard has recently been appointed sole and exclusive manager of the Parks' farm.

Quits a number of people from this place attended the literary society at Horsford Friday night, and report a good time.

Louis and George Faulkner, of Boyd county, passed through here Saturday with a fine drove of fat cattle.

C. C. Bellamy and daughter, Zoa, called on friends in Buchanan last week.

ILLUSTRY.

E. J. Moore and Prof. Steele have dissolved partnership and E. J. has employed Rev. John Corley to run his farm.

L. R. Swan is continually walking over his new farm and telling his renters what has to be done and always whilsting that same old tune.

George Blevins is carrying his gun for bad dogs.

F. A. Moore was visiting his father Sunday.

If you want to see E. J. now you'll find him at home singing the old song, "Bum-bay ring."

John O'Bryan is contemplating going to Cuba soon.

Bacum Sturgill was to see his best girl Sunday.

Wonder what has become of poor Uncle Tol. He must have blown away in the recent snow storm.

## AN AWFUL LIAR.

The Cincinnati Post is publishing lies almost daily from some unscrupulous individual at Glenwood, this county. Here is specimen:

Glenwood, Ky., Feb. 28.—Great excitement prevails on the head of Holts' Fork over the finding of a trail of blood along the public highway. It is thought by many that a murder may have been committed and the body carried a long distance and concealed. The case will be investigated. It is known that an Italian peddler went in that direction yesterday evening but no one knows where he staid all night.

## SURVEY

Now Being Made for the Gas Pipe Line.

An engineering party employed by the company proposing to pipe gas from the Warfield wells to points below, spent Tuesday night in Louisa.

The route now being surveyed does not follow the river all the way, but takes a shorter course through the country. It leaves the river a few miles above here and strikes it again four miles below Louisa, going by way of Mill creek and Tabors creek.

While here the engineering party did some talking which caused the City Council to receive some undesired censures from the citizens who were not acquainted with the circumstances. This party said the Council had refused to grant the company a franchise and that for that reason they were leaving the river and cutting Louisa out.

The facts are that a young man named Kirk appeared in a Council meeting and asked for a franchise for a gas company. He was treated with due consideration and was informed of the requirements of the charter in such cases, and asked to comply with them. He said he would do so by the next meeting, and one was called for the following Monday. Nothing was presented at this meeting by anyone, however, and this was the last heard of the matter by the Council. Mr. Kirk was here this week and when asked about it, said he had sent the necessary certificate here to some one to be presented. If so, it failed to show up.

The requirements were, that evidence be presented with the application showing that the franchise was wanted in good faith and not for speculative purposes, and that the application be made in regular form so that the necessary advertising for bids might be done.

The Council have been willing and anxious all the time to grant the franchise, but they must proceed according to law.

## LA GRIPPE

Mistaken For Consumption—Given Up to Die.

To some people the mention of la grippe calls forth a smile. They are the people who never had it. Any one who has ever had even the slightest touch of la grippe knows well the complete misery it brings. And not only misery for the time being, but unless properly treated it acquires a long and painful train of after effects.

Per-una is the remedy for all such cases. Mrs. Lou Davis, of Fayetteville, Tenn., writes as follows: "I was afflicted with a disease commonly known as la grippe. The doctor said I had consumption. I had a dreadful cough and could not sleep at night. I was advised by a friend to try Per-una. I got one bottle, and the second night my cough stopped. I took two bottles, and I will say that I believe I would be a dead woman now if it had not been for Per-una. I recommend it to all who suffer with la grippe."

Send for free book on "Winter Cough." Address the Per-una Drug Manufacturing Co., Columbus Ohio.

## COLLECTOR'S SALE.

## DEMOCRATS WIN

The Contest For County Clerk and Jailor.

On last Friday the Court decided the contest cases in favor of Robt. Dixon and R. S. Chadlin. The decision was unanimous, and following is a copy of the judgment rendered:

The parties having been fully heard and the Court of Contest being fully advised, it is adjudged that at the general election held in Lawrence county, Ky., on November 3, 1897, the contestant, Robt. Dixon, received a majority of the legal votes cast at the election for the office of Clerk of the Lawrence County Court, and that said contestant, Robt. Dixon, was elected to and is entitled to the office of Clerk of the Lawrence County Court and that said contestant, F. E. Holbrook, was not elected to said office and is not entitled thereto, and it is further adjudged that contestant Robt. Dixon, recover of contestant, F. E. Holbrook, his cost and disbursements, amounting to \$50.00.

John H. Thompson, J. L. C. C. J. J. H. Clayton, J. P. L. C. C. John Compton, J. P. L. C. C.

The same judgment was rendered in the case of Chadlin against Gannell.

It is said the contestants have three winning points, either of which is sufficient to hold the offices. One is an indisputable majority of legal votes and another is the failure of the contestants to file their notices within the time required by law.

The contestants have from the beginning declared to friends that they had positive knowledge of their election, and that the contest would not have been instituted had there been any doubt as to the right to the offices.

Mr. Holbrook has surrendered the Clerk's office to Dixon, but has sixty days in which to appeal, in case he decides to do so. Mr. Gannell still holds the office of Jailor.

## OUR NEIGHBORS.

Allice Blair, age 17, of Johnson county, has been taken to Covington for violating internal revenue laws.

Mr. Hatfield, the Pike county Representative introduced a bill in the Legislature of a reward for killing wolves, wild cats and red and gray foxes.

Deputy Collector B. F. Wyatt, of Mt. Sterling, who has been in charge of the Ashland division as a hold-over from Collector Shelby's administration, retires from the revenue service with the close of February business.

Congressman Fugh has not lost all hope of obtaining a public building for the Ninth district because he was crowded out of the Sundry Civil. He thinks he will be able to receive an appropriation in the next session.—C. J.

Huntington, Feb. 28.—Near Matewan, Mingo county, today section hands on the Norfolk and Western railroad found the dead body of Robt. Hart, of Ashland, Ky. Hart was employed by a timber company in that section. His friends allege foul play, but general belief is that he was struck by a train and killed.

Hoyt Custer Pleaded Guilty.

Probably the most important case disposed of yesterday was that against Hoyt Custer, of Boyd county, who was formerly Individual ledger keeper for the Catlettsburg National Bank.

The grand jury charged him with making false entries in the bank's ledger. He was charged with unlawfully embezzling the individual account with \$200, \$100, \$50 and \$100, and also with falsifying \$250 against the account of Mrs. W. Houshelt, administrator.

Custer is a good-looking, honest-looking fellow, who was suspected by the President of the bank and who was trapped by Hank Examiner James S. Escott. While the indictment was being read Custer was visibly affected, and stood pale and trembling in the presence of the court. At the very first moment he pleaded guilty. He was taken to jail. The lowest penalty is five years.—Courier Journal.

## PAINTSVILLE.

D. J. Wheeler and family are visiting Ashland, Ohio.

T. S. Kirk is in Frankfort.

W. H. Vaughan started to Frankfort today with a petition asking Senator Dingus to favor the McCord bill, which provides that the Railroad Commissioner may regulate the freight rates for the railroads.

On Saturday night about 8 o'clock a bad attempt was made to set the town on fire by setting fire to the barn of John Duke Preston. The barn stands near the Court house, and in close proximity to other wooden buildings and it is thought that nearly the whole town would have burned if it had not been discovered and put out.

Sam Stapleton and family, of Mudlick, left Sunday for Mississippi.

## THOS. CHILTON BUTLER.

"The death change comes. Death is another life. We bow our heads. At going out, we think, and enter straight. Another golden chamber of the King's larger than this we leave, and lovelier. And then in shadow glimpses disconnect. The story, flower-like, closes thus its leaves. The will of God is all in all. He makes. Destroys, renews, for His own pleasure all."

Thomas Chilton Butler, after an illness of two years with consumption, passed into the lengthening shadows of the valley of death with the calmness and rest of a tired child seeking repose in sleep. His death was beautiful with the serenity of a soul from when the sting of death had been expected, and he met his God without a tremor, with no forebodings that ill from that benign hand belided him. In these days when some are continually applying theistic sufferings to the bright tapers of a Christian faith, it was well for these dismal pessimists to witness a triumphant death like that of Brother Tom's. The writer is sure that their sophistries would have been swept away like the mists before the bright evidence that shines resplendent from this young man's face while the sun of his mortality was setting. The marks of the supernatural called the new birth were plainly visible—love, joy, peace, gentleness, meekness, humility—the soul takes on no such graces naturally, such rare exotics do not grow from the barren soil of the natural heart. These are purely and simply fruits of the spirit, whose life and nature are implanted in the soul, and they come "from above." Oh, infinite miracle of grace—the birth of a soul from the chrysalis of sin and self into the life where every faculty has its appropriate latitude, and breathes a diviner breath!

Experiences such as these, aside from the sanction of the Word of God, bring us again and again to the insistence of sudden conversions, and any one who may read these lines who doesn't know the joy and peace of this experience, we urge you to think of the example of this sketch, whom God ordered in this community as a monument to His truth. You dare not close your eyes to this modern miracle. Dear friend, believe God, and let Him witness this truth to your heart.

I called on Bro. Tom at Catlettsburg some weeks before his death, and instructed him in the way of God as expressed in the Word. He was an eager and attentive listener to these things of weighty concern, and made the definite promise that he would give himself to sincere thought upon the subject. This was not the first serious attention that he gave to the matter, however, for I learn from one near of kin that he wrote a letter two years ago during his illness in Pike, to his brother, in which, commenting on the bereavement of their sister's death, he made the statement that he would be the next, and intended to prepare himself for the summons. So that, when he came to Louisa from Catlettsburg a few weeks ago, he had made some advances in understanding what the "must do to be saved." His decline was rapid, and as physical strength gave way, the lips moved in earnest prayer, and on Monday evening, Feb. 7th, 1898, while talking to friends about heaven, the spirit floated his soul with joy, and he shouted God's praises until he was exhausted. The glad news came over the wires to the writer who was at Ashland, "Tom is saved and wishes to see you." Glorious message—it was known in heaven before it came to me! Prayers had been answered, burdens had been removed, and we could lay away the dust without regret.

On Wednesday, while the sun was setting in the west, I was hastily summoned to his bedside, and he requested baptism. I performed the solemn ordinance, and gave him the emblems of Christ's body and blood in the sacrament. "Thank God," said he, "all is now ready, and I shall go in peace." I shall never be called upon to perform a service of this kind under more touching circumstances. The natural sun flooded the room, the Sun of Righteousness shone in Tom's face and family and friends were gathered at the bedside to bid a tearful farewell. "Draw back the curtains," said the sufferer, "I want to see the sun set—my last evening on earth! But thank God, my Sun is rising!" God spoke through those lips to every friend and relative a note of warning—"I prepare to meet God. Don't delay repentance for a death-bed!" We hope to see the fruits of many promises made.

A word or so by way of biography might appropriately bring this tribute to a close. Tom was born Dec. 3rd, 1875, at what is known as Old Peach Orchard, in Lawrence county, Ky., and died Feb. 7th, 1898, at 10:30 p. m., at Louisa, Ky., aged 22 years, 2 months and 6 days. He left the home place at about the age of 20 years, for Paris, Ill., and spent most of his young manhood in the west. After several years in

returned, about five years ago, to Catlettsburg, and made that place his headquarters. He was well and favorably known throughout the Big Sandy Valley as a young man of genial spirit, fond of his friends. Two years ago at Pikeville, he was taken ill with typhoid fever, which left his system debilitated, and consumption soon marked him as a victim. His unusual robust strength stood off the hour of death for many a day, and he kept the genial glow of a warm heart and uncomplaining spirit throughout his extreme suffering. I have not been fulsome in my eulogy. I desired to express for the consolation of the family, and touch some response in the hearts of living young men who knew and loved Tom, some things that will always keep his memory green and testify to the glory of God.

"Nothing in his life, Became him like the leaving it." L. H. H.

William Ferguson, of Ralief, was a  
visitor to our town the 24th.  
Miss Lily Dills, of Paintsville, is  
on a visit to her sister, Mrs. Dave  
Hamilton.  
Ben Dills and Miss Williams, the  
daughter of Robbin Williams, were  
married at this place the 24th, by  
Rev. Ferguson.

### PAINTSVILLE.

On the 22nd the fire-dead visited  
our town and totally destroyed the  
beautiful and commodious law of-  
fice of E. L. Kasee, together with  
all the libraries, notes, etc., a to-  
tal loss of about \$2,500. He had an  
insurance on the building for \$300.  
The fire by some is thought to be  
the work of an incendiary. Mr. K.  
is a lawyer of considerable ability  
and has accumulated more property  
than most men of his age. He  
has sustained a great loss as he had  
one of the finest libraries in East-  
ern Kentucky.

### Ben Hamilton was in town last

Saturday.  
Rev. R. M. Miller and T. J. Chan-  
der were here on business on the  
26th.  
Rev. H. R. Moore has gone to the  
country to attend a quarterly meet-  
ing.

Sam Stapleton has sold his farm  
on Mudlick to Mr. Stafford, for  
\$2,300 and will move to Minne-  
sota. He and family start on Feb'y  
27th.

Fred Vaughan is assisting Prof.  
Wheatly in the East Point school.  
He reports an enrollment for the  
present term of 118 pupils, which is  
now the largest school on the Big  
Sandy.

Prof. Stapleton and Vaughan  
and the young ladies, Misses Rule  
and Updell, are all having  
schools.

Rev. Oaks will preach here on the  
27th.

Thirty-five copies of the Times-  
Star and perhaps many more of  
the Cincinnati Post, are sold here  
every day and still the demand is  
greater than the supply.

In the words of Patrick Henry,  
we would say, "The war is inevi-  
table; let it come." Cnbs should be  
free and Uncle Sam should be re-  
spected.

Prof. Scott Ely, who is teaching  
a school at Oil Springs, is at home  
and gives a flattering report of his  
school.

Miss Ella Williams, one of our ac-  
complished young ladies, is teach-  
ing this season in the Salyersville  
school.

The Beniah Brown is doing a fine  
business.

The protracted meeting is still in  
progress. There have been a few  
converts and much good done in  
reviving the membership.

## A NEW TRIUMPH.

The Deceased Consumption  
can be cured  
T. A. Stocum, the Great Chemist  
and Scientist, will send to Suf-  
ferers, three free bottles of his  
Newly Discovered Remedy to  
cure Consumption and  
all Lung Troubles.

Nothing could be fairer, more philan-  
thropic or carry more joy to the afflicted  
than the generous offer of the honor-  
able and distinguished chemist, T. A. Stocum,  
M. C. of New York City.

He has discovered a reliable and abso-  
lute cure for consumption and all bron-  
chial, throat, lung and chest diseases,  
external affections, general decline and  
wastings, and to make his great  
marvelous remedy, will send three free bot-  
tles of his newly discovered remedy to any  
afflicted reader of the Big Sandy News.

Already his "new scientific system of  
medicines" has permanently cured thou-  
sands of apparently hopeless cases.

The doctor considers it not only his  
professional, but his religious duty—a  
duty which he owes to suffering human-  
ity—to donate his infallible cure.

He has proved the dreaded consump-  
tion to be a curable disease beyond a  
doubt, in any climate, and has no file in  
his American and European laboratories  
thousands of "heartfelt testimonials of  
gratitude" from those benefited and  
cured in all parts of the world.

Cerebral and pulmonary troubles lead  
to consumption, and consumption, un-  
interrupted, means speedy and certain  
death. Don't delay until it is too late.  
Simply write T. A. Stocum, M. C., 391  
Broadway, New York, giving express and  
postage address and the cure will be  
sent to you at once.

## SYMPTOMS OF BUCK FEVER.

A Michigan's News Paper Experiences  
with a Deer.

A Marquette citizen tells the Mar-  
quette Mining Journal his experiences  
with "buck fever." He had never tried  
to shoot a deer, and having been  
new to him. After spending a few hours  
tramping through the woods, feeling  
tired, he sat down on a log to rest for a  
short time. Now, like most hunters, he  
had taken his pipe and tobacco along.  
Filling the pipe, he smoked for a time  
without interruption, when, happening  
to turn his young mind to the stag  
saw a large buck coming straight  
toward him. As luck would have it,  
he had sat down to smoke near a deer  
trail.

The deer kept getting nearer and  
nearer, until he got nearly opposite the  
hunter's position.

While the hunter was watching the ap-  
proach of the deer he forgot that he had  
a gun, and that the deer was his "meat."  
He began to tremble and shake in a  
fright, and it was a difficult  
matter for him to restrain a yell of  
alarm. He watched and trembled until  
the deer was passing his hiding place  
and into the thicket beyond. Then, feel-  
ing for his pipe, he discovered that it  
lay on the ground near his feet. By  
that time he had picked it up the deer  
was out of range, and then he dis-  
covered that in his excitement he had bit-  
ten the mouthpiece of his pipe in two.

He was greatly relieved to see the deer  
move on, as it seemed to him that he was  
the game and the deer the hunter.

## POWER OF THE MARSEILLAISE.

The French Marseillaise of Hearing it  
in the North.

Nothing of the kind in this world  
can be more impressive than the way in  
which an audience of 5,000 French radi-  
cals received that wonderful air, "The  
Marseillaise," says Col. T. W. Higgin-  
son, in the Atlantic. He observed that the  
chorus of the Marseillaise, the right  
hand never once looked at the notes, and  
few ever had any, so familiar was it to  
all. There was a perfect hush in that  
vast audience while the softer parts  
were sung; and no one joined even in  
the chorus at first, for everybody was  
listening. The first, however, the  
chorus alone, the applause broke like a  
tropical storm, and the clapping of  
hands was like the falling flight of a  
thousand doves all over the vast arena.  
Behind those twinkling hands the light  
dresses of the ladies and the blue  
dresses of the workmen seemed to  
sway in the breeze.

An author who insisted on being his  
own publisher began an expensive lit-  
erary quarrel before a page was put  
in type by ordering the full-page illus-  
trations to be printed in an improper  
position on the page. The engraver  
protested, but the author insisted on his  
method. The result was a failure.

## SIAMESE TWIN PEACOCKS.

Owned by a Philadelphia Man, Was  
in the East.

One Frisch, who lives near Thirty-  
seventh and Market streets, Philadel-  
phia, is the owner of a curiosity for  
which he has received many tempting  
offers from museum managers, but  
which he refuses to sell, says the Rec-  
ord of that city. About three months  
ago Mr. Frisch received from his brother,  
who is a missionary in India, two  
eggs that were joined together. A note  
accompanying them explained that they  
were peacock eggs, and a great  
curiosity on account of their strange  
form. Now, Mr. Frisch has a friend in  
Philadelphia who is a poultry  
farmer, and the idea struck him to have  
the eggs hatched in an incubator. In  
the course of a month the shells fell  
apart, and instead of two separate  
birds stepping out, the pair came forth  
joined together by a thick band of  
skin, and appeared to be one bird.

They are only settled by one of the  
farmer, and the idea struck him to have
